\* We have attempted to make this index as complete and simple as possible. To this end the letter (a) in parenthesis after an article indicates that its length is over three pages, and the letter (b) indicates that the length is from one to three pages. Items not so designated are less than a page in length. *Italicsized* words in brackets refer to the same or kindred subjects in the index. Death notices come under the head of *NECROLOGY*.

The month in which a given page occurs may be ascertained by dividing the number of the page by 80 and adding 1 to the dividend (omitting decimals). Thus:  $656 \div 80, +1 = 9$  (September).—D. L. P.
